

Nyhetsbrev om AURUM från ProfitLocker:

Nummer 5, augusti 2026

Hej,

Det här en uppdatering för dig som har gått med i Aurum via ProfitLocker.

Bra om ALLA följer Aurum's officiella kanal på Telegram, här:

https://t.me/aurum_eng

Uppdatering med planen framåt (Roadmap) för AURUM idag, webinar

Tid: 18:00 onsdag den 12 augusti 2026

Länk: <https://us06web.zoom.us/j/85239961286?pwd=QBaHGeLjHLRpZPfw7bhUxDVayRotON.1>

Jag har redan sett den "roadmap" som Aurum kommer att presentera. Den ser ut så här (med reservation att de kan ha gjort justeringar till detta webinar):

ROADMAP

AUGUST — OCTOBER 2026

AURUM NEYRO

AUGUST RECOVERY, RESTORATION & ORBIT ONE

01

Partner Compensation Withdrawals
Limited restoration of partner compensation withdrawals with temporary daily limits based on each partner level.

Quantum Alpha Restoration
Restoration of Quantum Alpha for partners who previously activated the product, with temporary projected monthly returns of approximately 2-3% during the transition period. Restoration of the partner compensation structure associated with Quantum Alpha.

Centralized Product Recovery
Completion of technical and security audits followed by the progressive restoration of:

EX-AI Bot EX-AI PRO Bot Zeus Bot

RWA GOLD (XAUT/USDC)

Orbit One — AI Trading Bot Aug 10-16
Launch of Orbit One, the new AI Trading Bot operating through a single decentralized liquidity pool (DEX) with transparent on-chain trading activity. The product will be integrated with the partner compensation structure, Share Pool participation, and the broader Neyro ecosystem.

Target monthly returns: approximately 15-20%

SEPTEMBER NEYROLABS RELAUNCH & ECOSYSTEM EXPANSION

02

NeyroLabs Relaunch & New Web3 Back Office
Early Sep
The full NeyroLabs relaunch is planned for early September, introducing the new platform together with a completely redesigned Web3 Back Office. The new Back Office will provide access to products, partner tools, account information, and ecosystem services through NeyroLabs.

Expanded Trading Infrastructure
Expansion of Neyro beyond a single trading product, including:

- Additional trading bots
- Integration of different trading algorithms
- Ability to introduce third-party trading solutions
- Opportunities for other companies to launch their own trading products through the platform

New Ecosystem Opportunities
Introduction of new partner bonus models, new financing opportunities and new strategic partnerships.

OCTOBER ECOSYSTEM EXPANSION

03

Leasing Platform
Planned introduction of a new leasing platform as an additional direction within the ecosystem. Exact mechanics and product details to be confirmed.

NeoBank Expansion

- New financial products
- A newly developed card
- Card limits of up to \$50,000 per month
- Preservation of the existing partner network within NeoBank

Final Ecosystem Integration
Continued integration and expansion of the key elements of the ecosystem:

Orbit One Neyro DEX NeyroLabs + New Web3 Back Office Partner Compensation Expanded Trading Infrastructure NeoBank
Leasing Platform New Partnerships

OCT
16-18

BALI · INDONESIA

AURUM BALI EVENT 2026

The AURUM Bali Event 2026 will bring together up to 250 qualified Partners and leaders from around the world for leadership, business, networking, recognition, and exclusive company presentations.

The Bali Event represents the final point of the August-October roadmap and an opportunity to bring the global community together as the ecosystem enters its next stage, recognition and exclusive company presentations — the final point of the August-October roadmap.

En plan framåt för Aurum finns alltså framtaget men som flera ledare inom Aurum konstaterat så finns det fortfarande en del frågor som bör besvaras också. Det här är de frågor som har ställts till ledningen för Aurum och där man blivit lovad svar på alla frågor inom kort:

- 1) **What about users and customers who are not participating in the affiliate program?** When can they expect withdrawals to resume, even if initially on a limited basis?
- 2) **What is the current status of outstanding withdrawals**, both those initiated before the Web3 transition and those initiated afterward?
- 3) **What is the current status of the EX-AI Bot?** Is it still operating in the background, has it been temporarily paused, or was it also affected by the hack?
- 4) **The same questions apply to the Zeus Bot.** In addition, according to Aurum's latest post, this product is supposed to be reactivated in Phase 3. At the same time, however, we continue to see activity/profits every day, which raises the obvious question: what exactly is the current status? The same applies, by the way, to Neyro's Quantum Alpha.
- 5) **The same question also applies to RWA Gold.**
- 6) **What is the current status of the virtual Visa cards** that have disappeared from the NeoBank accounts of some users, including the balances held on those cards? We have learned that some users who had previously saved their card details are still able to use the cards for online payments. Only Apple Pay and Google Pay appear to no longer be working for some. Physical cards, on the other hand, seem to continue functioning without issues. We are also waiting for information regarding top-ups that were made before the incident but have not yet been credited.
- 7) Based on everything we currently know, it appears that **only Neyro and the wallets related to the Web3 transition were affected.** What is the status of all other products?

Mina egna tankar kring detta...

Jag tycker också att den roadmap som Aurum tagit fram saknar en hel del viktig

information och de frågor som nu ställts till ledningen är bra frågor som kräver sina svar.

Från början känns det ju som att man inom Aurum varit väldigt fokuserad på att snabbt kunna få till en övergång från sin centraliserad plattform till att bli en 100% decentraliserad plattform. Det har med att man vill se till att man följer de regelverk som gäller på marknaden för att kunna vara licenserad osv.

För regelverken för en centraliserad plattform där företaget handhar sina kunders pengar är betydligt striktare än för en decentraliserad plattform där företaget inte direkt handhar sina kunders pengar.

Så jag förstår verkligen Aurums val i denna fråga.

Men när man då jobbar med de allra sista pusselbitarna för att kunna genomföra denna överföring till den decentraliserade plattformen blir man utsatta för en allvarlig cyberattack.

Vi kommer löpande att få veta mer om hur man planerar att komma igång igen. Det kommer säkert ta sin tid innan allt kan fungera normalt igen.

Trevlig vecka!

Mikael
